ClimaTech Summit

Join us for the first ClimaTech Summit on September 29th. This one-day virtual event will bring together top climate tech innovators, investors, and policymakers for a series of keynotes, panel discussions, and networking opportunities.

Our Vision

A world where everyone is a CleanSpotter – taking small actions every day to protect the environment, and earning rewards for doing so. Together, we'll create a healthier, greener, more beautiful planet.

Learn more

Our Story

CleanSpotter was founded in 2019 by two friends, John and Sarah, who wanted to make it easier for people to take action for the planet. They started by creating a simple app that helped users find nearby recycling centers, and quickly grew their community by adding new features like trash cleanups, tree planting events, and eco-friendly product recommendations. In just a few years, CleanSpotter has become one of the world's largest environmental platforms, with millions of members taking action across 195 countries.

How it works

Find a spot

Use our interactive map to find a spot that needs cleaning

Solve the problem

Get a team together and solve the problem. You'll earn points for each spot you clean up

Track your impact

Every time you report a spot or help clean one up, you'll earn points. Track your progress on your profile.

What you can do

Report a spot

Report a pollution spot, illegal dumping, or any other environmental issue

Plant a tree

Plant trees in deforested areas to help restore habitats and reduce carbon emissions

Clean up a spot

Pick up litter, clean up graffiti, or help restore natural habitats

Turn off lights

Save energy by turning off lights when you leave a room

Turn off water

Conserve water by turning off the faucet while brushing your teeth
